

Run 26

Welcome

pack

DiABETES UK
KNOW DIABETES. FIGHT DIABETES.

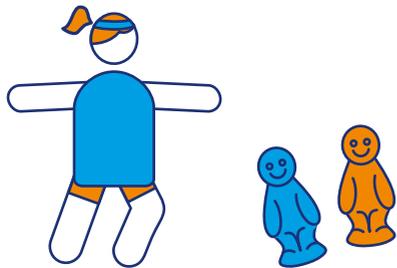

Run towards a healthier you

How to conquer Run26.

Run26 is going to be your way to a healthier you. To complete it you'll need to run 26.2 miles – the full marathon distance – in your own time during October. You can pound the pavements and the parks or even complete it on a running machine in your front room or a gym. However you do it, you'll end up feeling great thanks to the improved mood that comes with exercise. And to top it off, you'll be raising money for people affected by diabetes.

To help you on your way here are a few pointers.

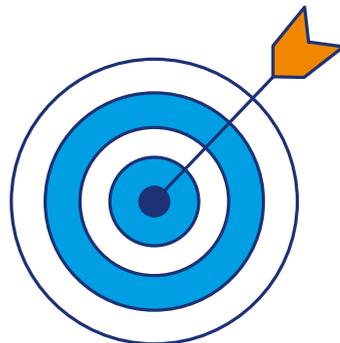

Look after yourself

Help avoid injuries by stretching before each run. If you feel sore give yourself a couple of days off. If you've got diabetes and need a hypo treatment, make sure you take it out on the run with you.

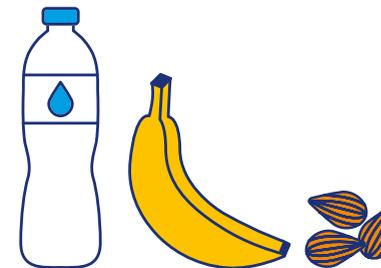

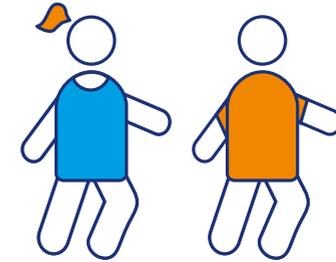

Set goals

Make running 26.2 miles easier by setting smaller goals along the way. You can try to increase the distance you do each time you run or try to do the same amount but quicker. The more you run the easier it gets.

Get a running buddy

Finding a friend to run with makes it more likely you'll get out there on days you might be short on motivation. Plus you can offer each other encouragement and catch up as you run.

Eat and drink

You'll need to fuel your body so make sure you've eaten before you run. But big meals should be eaten an hour or two before. Don't forget to take a bottle of water with you.

If you are new to exercise, or have any medical conditions which could be adversely affected by it, please check in with your doctor before you start.

The difference you'll make

Here's just some of the ways the money you raise will help people with diabetes.

Revolutionary research

In labs up and down the country we're creating life-changing new treatments and making groundbreaking discoveries. Each pound you raise and every mile you run takes us closer to a cure.

Diabetes UK Helpline

Living with diabetes can be confusing, exhausting and tough. Our helpline is there for everyone with diabetes. Our counsellors really know diabetes and provide support, information, advice and a comforting ear during difficult times.

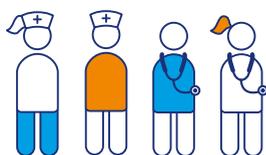

Crucial campaigns

Our campaigns improve life for people with diabetes every day. They secure better care, make sure new technologies reach the NHS and win changes in government policy so diabetes gets that bit easier.

Supporting people locally

Our 338 local support groups make sure people don't have to face diabetes on their own. Your fundraising means more people can learn how best to manage their diabetes from someone nearby, who's been through it themselves.

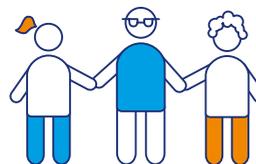

Improving care

We work with nurses, doctors, consultants and managers across the NHS to make sure care for people with diabetes is always getting better. By taking part in Run26 you're helping us fund this crucial work.

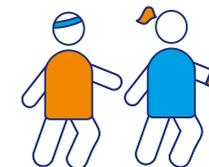

Sharing vital information

There is a whole lot to learn about diabetes. We give people the essential knowledge they need. Our free online Learning Zone is just one of the ways we help people get to grips with their diabetes.

Building the diabetes community

Whether it's online or at one of our events we bring people with diabetes together. It allows people to share their experiences, learn from each other and influence research, care and government policy.

Preventing Type 2 diabetes

By running 26.2 miles in October you're not just getting yourself a little fitter. You're helping us support people to reduce their risk of Type 2 diabetes and making our fight for a healthier country possible.

Let's get fundraising

Now you know the difference you'll be making, here's some tips to get your fundraising off to a good start.

Set up your profile page at run26.diabetes.org.uk

With your tracker profile page, you'll not only be able to log your runs, but also ask friends and family to donate online. Simply share your link, tell people why you're taking part and ask them to donate. Your profile page will keep a track of your sponsorship total and send donations directly to us.

Make the most of your tracker profile page

Make sure you tell people why you're taking on Run26 and why supporting Diabetes UK is important to you. Adding photographs and a target to your page will boost your fundraising.

Tell people again and again. And again

Put up your poster and keep telling your story. People will be impressed you're running 26.2 miles but they might need a few reminders to donate. Spread the word on social media too [#Run26](https://twitter.com/Run26)

Remember Gift Aid

If your sponsors are UK taxpayers ask them to tick the Gift Aid box. It means for every pound they donate we get an extra 25p.

Track your run

You have a personalised online tracker profile page to help you keep track of all those miles.

To set you off on the right foot, we've created a handy website for you to keep a track of both your running and fundraising. Personalise your profile page by adding a photo and telling your story.

You'll also be able to collect virtual badges, see how you're doing compared to your fellow challengers on our leaderboards and share your progress with everyone on Facebook and Twitter. Log in to your page at run26.diabetes.org.uk

If you've got a competitive streak you can see how you're doing compared to your fellow runners on our leaderboard.

Find more tips online

You can get more fundraising tips and advice from our Run26 team. They can also help your fundraising look the part by providing bunting, balloons and collection tins. Email us at run26@diabetes.org.uk

Pay in your fundraising

Please make any cheques payable to Diabetes UK.

Post to Run26, Diabetes UK,
126 Back Church Lane, London E1 1FH.

Or to pay over the phone,
call **0345 123 2399***.

Keep in touch

You can contact the team by email at run26@diabetes.org.uk or call **0345 123 2399***.
